

# ULTRA SHADE ZIP SCREEN

# Robust and Dependable Sun Protection

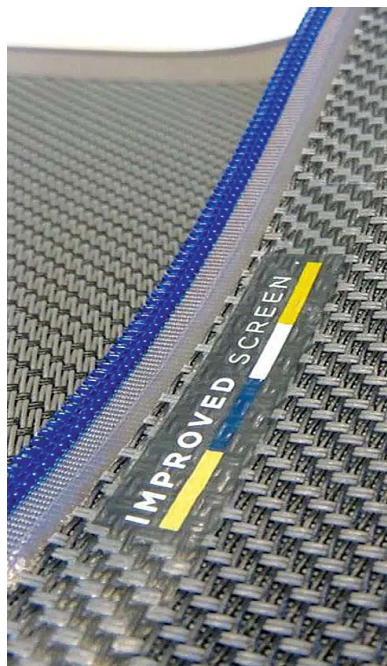

heroal

The VS Z Zip Screen is one of the most robust and dependable products on the market.

The VS Z is an innovative zip screen system, mounted in front of the window. Used for private, medium and large building projects, it is particularly suitable for schools, office and residential buildings.

By reflecting sunlight and filtering UV radiation, the VS Z is an energy efficient full shade that offers maximum flexibility. Choose translucent or opaque sun protection with little loss of natural light, to add aesthetic design and to provide optimum anti-glare privacy and heat protection.

## IMPROVED ZIP TECHNOLOGY

- Thinner and clearer tape, for added visual aesthetics
- High strength, glue-to-fibre process
- Improved tape weaving removes bulges that can form near the channels

Maximum  
Width

**6.10m**  
**(20 ft)**

Maximum  
Height

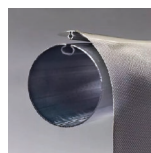

**5.20m**  
**(17 ft)**

Maximum  
Area

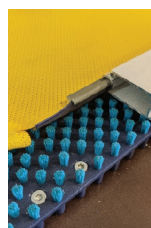

**18m<sup>2</sup>**  
**(192 ft<sup>2</sup>)**

## VISITEX FASTENING SYSTEM

- Creates a smooth transition from textile to the bottom bar, without creating any visible seams in the textile
- Creates a sleek, clean look with modern appeal

## CLICKON

- Quick and seamless process compared to traditional systems
- Uses an ultrafine plastic profile directly welded to the fabric
- Reduces the thickness of the overlapped textile when rolled on the axle, decreasing the horizontal impression lines
